FELIPE BRAUNSTEIN E SILVA

Software Engineer | felipebraunsteinesilva@gmail.com | +55 (11) 94341-0818

Summary:

Software Engineering student with a strong interest in developing technology-driven solutions, particularly in front-end development. Skilled in software development, adaptable to new challenges, committed to continuous learning, and proficient in intermediate English.

Education:

Faculdade de Informática e Administração Paulista (FIAP) — **São Paulo, Brasil**
Software Engineer — 2024 - 2027

Academic Experience:

Formula E | Tech Mahindra — **FIAP: Challenge - 2024**
Developed a website and a strategic outreach analysis as part of a multidisciplinary project carried out in partnership with Tech Mahindra, with the goal of strengthening Formula E's digital presence, increasing audience engagement, and supporting communication and user experience decisions.

Oceans 20 (020) — **FIAP: Global Solution - 2024**
Collaborated on a project with Oceans 20 focused on developing a website to raise awareness about ocean health and marine pollution. The project involved creating strategies for environmental data collection and developing clear, accessible visualizations aimed at improving public understanding and engagement.

DASA — **FIAP: Challenge, Global Solution - 2025**
Worked on a hospital service improvement project by conducting research with different user profiles, identifying long waiting times as the main issue, and proposing the implementation of self-service kiosks/tablets, with a future-oriented vision of assistant robots to streamline processes.

Professional Experience:

VBR Arquitetura, 2024
Construction Site Supervision Assistant
Monitored and supervised contractors, including porcelain tile installers, painters, civil construction workers, architects, electricians, and carpentry teams, ensuring proper execution and timely completion of projects.

Garantia Real GR, 2025 - 2026
Construction Site Supervision Assistant
Oversaw and monitored civil construction contractors, architects, electrical teams, carpentry teams, and blind installers to ensure quality execution and proper project completion.

Skills and Additional Experience:

Languages: Portuguese (Native), English (Intermediate)
Hard Skills: HTML, CSS, JavaScript, Python, React Native, Expo Router, Data Analysis, Code Analysis, Figma, Canva, Photoshop, Premiere Pro, and Microsoft Office.
Soft Skills: Communication, Storytelling, Teamwork, Critical Thinking, Creativity, Problem-Solving, and Organization.
